Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7).
Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

END OF GENERAL DECISION

STATEMENT OF WORK
FOR
EEPZ 03-2004E
MAINTAIN INTERIOR AND EXTERIOR PAINT FOR WATER TOWER, FACILITY 355
26 January 2009

SUBMITTALS REQUIRED:

See Form 66 (attached)

SCOPE:

Provide all plant, labor, material, equipment, and transportation required to sandblast/pressure wash and paint the exterior of one tower and support structure. Prepare and apply a new corrosion resistant coating to the tank interior. Provide and install new cathodic protection system and repairs as described below. Apply the new AF symbols (2).

DESIGN:

Designs are considered to be no more than 35% complete. Contractor is responsible for all remaining design effort in order to provide an acceptable final product that meets intent of this Statement of Work and design drawings. Contractor shall verify all dimensions, calculations and code requirements for all elements of work. At time of proposal submission, contractor shall provide evidence of adequate design, including but not limited to electrical, mechanical, and civil calculations. Contractor is responsible for ensuring constructibility and code compliance.

Record drawings may be provided to the contractor as a courtesy at the discretion of the Government, but their accuracy is not guaranteed. The contractor shall do his own field investigations of the utilities and other items in the area and base his design accordingly.

SCHEDULING:

Contractor shall establish an acceptable work plan with the Government prior to start of work. Coordinate all utility outages with the Government to minimize negative impact to the base mission.

CONSTRUCTION PLAN

- Examination:

- Verify the surface is free of dust or other contaminants prior to application of new coating. All currently installed equipment including but not limited to strobe light electronics, telephone outdoor terminal, and outdoor phone should be appropriately protected for the duration of the project.

- Preparation:

- Prepare existing surfaces prior to application of new coating. Sandblast and pressure wash exterior. Clean and dry interior, repair prior to application of corrosion resistant sealant. Repair welds and complete a SSPC-SP #10 blast. Use the required means to insure the bond of the new coating by brushing, vacuuming, power blowing, sandblast and washing, or power washing.

Tank is positive for lead-based paint. Provide all required preparation and containment systems to comply with local, state, and federal regulations.

- Coating Installation

- Exterior and Interior paints/coatings will be applied in accordance with the both UFC 3-120-01 (Chapter 4) and manufacturer's specifications by certified, factory-trained applicators under supervision of manufacturer's representative. All work will comply with all local, state, and federal regulations.
- Apply the new AF symbols.

- Cleaning:

- In areas where finished surfaces are soiled by work of this section, consult manufacturer of surfaces for cleaning advice and conform to their documented instructions.
- Replace cathodic protection system, including, but not limited to rectifier replacement, anode replacement, suspension system replacement, operational check-outs and test reading to verify proper protection.

- Miscellaneous Work

- Provide new stainless steel roof vent system.
- Install balcony holes to prevent further water collection.
- Install riser grate for fall protection.
- Install climb preventive shield on ladder. The shield must be installed without altering the ladder and must be able to cover a safety bar, cable or rail, if installed.
- Provide new overflow pipe system with flap valve.
- Weld all pits greater than 50% of original steel thickness.
- Tank shall be disinfected.
- Replace electrical panel. Install a weatherproof enclosure and circuits that are UL approved and in accordance with NFPA 70.
- Reposition strobe light in accordance with UFC 03-535-01 (Chapter 10).

GOVERNMENT FURNISHED EQUIPMENT:

The Government will not furnish materials.

INSTALLATION/WORK PLAN:

Provide adequate lighting for safe work area and personnel noise protection as required while engaged in work. There may be hazardous materials associated with this project. Contractor shall be responsible for the installation and work. Contractor shall install proper construction markings and tape during work in progress. Contractor shall maintain a hazard free work area during daily operations. Contractor shall provide notice to the Contracting Officer prior to starting any work under this project. Contractor shall provide As-Built drawings of final installation prior to final acceptance by the Government.

MAR 09 2009

MEMORANDUM FOR 14 SFS/CC
14 CES/CC
14 CPTS-CONS/CC
14 MSG/CC

FROM: 14 FTW/CC

SUBJECT: Conducting Background Investigations

1. The responsibility for conducting background investigations for personnel seeking contract employment passes on Columbus AFB is delegated to the 14th Security Forces Squadron Commander. Approval decisions are also delegated to the Security Forces Squadron Commander, as long as applicants fit the criteria as stated below. Any circumstances requiring further discussion will be forwarded through the Security Forces Commander to the 14 MSG/CC or CD if the commander is not available.
2. The responsibility to create standards for conducting contractor background checks is delegated to the 14 MSG/CC. This memorandum fulfills the requirement as listed in USNORTHCOM Antiterrorism Operations Order 05-01B and CAFB OPLAN 10-245. Procedures in this letter will be incorporated into OPLAN 10-245 and the ISP 31-101. Decisions on suitability will be based on background returns from Mississippi Justice Information Computer (MJIC) and Security Forces Management Information System (SFMIS). All personnel seeking contract employment/visitor's passes will submit to a background check by completing the OMB Form I-9 or Standard Form 85 or 85P as appropriate (see Tab C to Appendix 8 to Annex C of USNORTHCOM Ops Order 05-01B). This is to ensure all policies and procedures are within legal constraints and to prevent jeopardizing an applicant's civil rights or protection.
3. Background investigations will be conducted by using the following procedures:
 - a. Passes will only be issued to individuals after they consent to a criminal background investigation. In order to initiate a background check, an individual must submit a completed release form and provide a copy (front and back) of a picture ID (i.e., state driver's license). One I-9 or SF-85/85P per employee is required. The contractor will compile all copies of the I-9s or SF-85/85Ps for respective employees and submit with a completed spreadsheet containing individuals information to the Visitors Center through 14 CPTS-CONS, a minimum of 2 weeks (or as reasonably practical) prior to the projected contract start date. Note: Any form/spreadsheet not correctly filled out will be considered incomplete and that contractor employee will not be granted access onto Columbus AFB. Information on the spreadsheet must be typed or computer generated on the provided template to ensure clear and legible information.

b. Contractor personnel convicted of, but not limited to, the following crimes will not be allowed to work on Columbus AFB: espionage, sabotage, treason or terrorism; violent crimes against persons; sex crimes; drug crimes related to distribution or intent to distribute; or firearms/explosives violations. Other grounds for exclusion for working on Columbus AFB include, but are not limited to: outstanding warrants, individuals identified on federal terrorist watch lists, and incarceration for 12 months or longer within the past 3 years. Deviations from this guideline are permitted on a case-by-case basis, as determined by the 14 MSG/CC. No specific reporting timeframe is established as a cut off for information pertaining to the investigation. All past information is reportable. However, the amount of time passed and the individual's history between an event and the initiation of the investigation will be considered when making any decision.

c. Two valid forms of ID (one of which must be a photo ID) as listed on the Form I-9 will be presented at the Visitors Center prior to a BLAZE card/AF Form 75 being issued. The contractor/subcontractor employee will submit to fingerprinting and biometric data collection prior to the pass being issued. Additionally, if the contractor/subcontractor employee is requesting a vehicle pass, he/she must provide a valid driver's license, vehicle registration and proof of insurance meeting the minimum Mississippi liability coverage. All contractor/subcontractor personnel obtaining a satisfactory criminal history and NCIC background check may obtain a pass to enter this installation.

d. Short-notice passes: Day workers and nonroutine delivery drivers will be screened as outlined in paragraph c above. The prime contractor will be contacted and then report to the Visitors Center to validate that the delivery or day workers are authorized. For delivery drivers not associated with a contractor, the Visitors Center will contact the recipient of the delivery and they will report to the Visitors Center to validate the delivery. Once the worker or delivery driver has been validated by the prime contractor or delivery recipient, the worker/delivery driver will complete the I-9 at the Visitors Center and present the applicable ID. The Visitors Center will fingerprint the worker/delivery driver while the Security Forces Control Center (SFCC) runs the criminal history/NCIC check. Should the NCIC system be down, the SFCC will attempt to run the criminal history through the Lowndes County Central Dispatch. If Lowndes County is unable to run the check due to system problems or workload, then an AF Form 75 will be issued with a valid period of only 24 hours. However, fingerprints and I-9 completion will be accomplished prior to pass issuance. The worker/delivery driver will then need to report back to the Visitors Center prior to the expiration of the pass where another attempt will be made to run the criminal history. Drivers of time-sensitive deliveries, such as concrete and asphalt, will identify themselves to the Visitors Center personnel upon arrival. The Visitors Center will then give them priority over any other waiting personnel. This entire process will be expedited to the maximum extent possible as to the driver's clearance and ID, and time-sensitive deliveries such as for asphalt and concrete trucks will always take precedence and be the highest priority at the Visitors Center/vehicle checkpoint over all other incoming deliveries. However, access will not be allowed until the entire process has been completed successfully.

e. Contractor/subcontractor(s) will report all lost, stolen or missing passes to 14 SFS immediately upon discovery. All passes will be turned-in upon completion of the contract, termination of employee, barring from base, release from contract, and/or Government terminated contract. Failure to follow stated procedures may prevent contractor/subcontractor from further qualifying for base access.

4. Felony convictions will not be an automatic disqualification. Individuals having a conviction of Driving Under the Influence (military)/Driving While Intoxicated (civilian) will not be automatically disqualified from employment. The presence of other additional convictions may influence the decision to disqualify. However, if an individual is allowed on base with a felony DUI conviction, the individual's driving privileges may be suspended/revoked while working on the installation. Family violence convictions will not be an automatic disqualifier. The 14 SFS/CC will review appropriate information to determine if base access is allowed.

5. Some applicants may be undergoing some type of judicial actions while the background investigation is being accomplished. In these situations, 14 SFS will monitor the proceedings and stay in contact with the County District Attorney/Prosecutor. The individual may be issued a temporary pass before court proceedings. If convicted of an offense that disqualifies an individual, the pass will be terminated, and the individual will not be allowed to work on base. In circumstances of alleged sex crimes or serious violence, the 14 MSG/CC may decide not to wait for a conviction and not allow the person to work on base. Work Release programs from the local confinement facilities will not be allowed.

6. Barment from base is never automatic. Some convictions will require the 14 MSG/CC to request the 14 FTW/CC bar the individual from base. SFS will keep a list of contractors not allowed to work on base. Individuals denied access as a contractor could still be sponsored onto the base for a social event where the sponsor is responsible for them. Normal sponsorship requirements will be met. This does not allow the individual to be sponsored for the purpose of employment.

7. Prior to the establishment of any work sites, contractors will receive a briefing which outlines Air Force and base physical security and information security requirements. This briefing will be conducted by a security forces representative at the pre-performance & pre-construction conferences hosted by 14 CPTS-CONS.

8. Any questions concerning this matter can be forwarded to 14 SFS/S3O at DSN 742-7123.
This letter supersedes all others, same subject.

ROGER H. WATKINS, Colonel, USAF
Commander

Statement of Work (SOW)
14th Security Forces Requirements

1. CRIMINAL BACKGROUND INVESTIGATION CHECK:

a. All contractors/subcontractors seeking to enter Columbus AFB (CAFB) for employment must submit to a criminal history background check prior to entering CAFB. A release form (I-9, SF Form 85 or SF Form 85P as appropriate) and spreadsheet template will be provided and must be completely filled out. Individuals will fill out one release form per person and the Contractor will compile all copies and provide them with a completed spreadsheet to the Visitor Center through 14 CPTS-CONS with all individuals' information, following the template. Contractor personnel convicted of the following crimes (but not limited to) will not be allowed to work on CAFB: espionage, sabotage, treason or terrorism; felony convictions; violent crimes against persons; sex crimes; drug crimes related to distribution or intent to distribute; or firearms/explosives violations. Other grounds for exclusion for working on CAFB include, but are not limited to: unable to provide proof of U.S. citizenship, outstanding warrants, individuals identified on federal terrorist watch lists, and incarceration for 12 months or longer within the past three years. Deviations from this guideline are permitted on a case by case basis as determined by 14 MSG/CC and/or the 14 FTW/CC.

b. Background checks will be considered valid for a period of 12 months for contractors without a break in service working on CAFB during that time. However, if there is a break in service (work on base) for longer then 6 months, the contractor will have to resubmit for a criminal background check. Note: any release form/spreadsheet not correctly filled out will be considered incomplete and that contractor employee will not be granted access onto CAFB. 14 SFS will notify 14 CPTS-CONS who will in turn notify the contractor of any problems with access forms/spreadsheets.

c. All contractor/subcontractor(s) obtaining a satisfactory criminal history background check must obtain a long (24 hrs-2 yrs) or short term (less then 24 hrs) AF Form 75 or BLAZE card to enter the installation. The contractor must provide a valid US government issued identification, identification must have person picture at time of obtaining AF Form 75 and/or BLAZE card. If the contractor/subcontractor is requesting a vehicle pass he/she must provide a valid: drivers license, vehicle registration and insurance meeting the minimum Mississippi liability coverage. Contractor/subcontractor will report all lost, stolen or missing AF Form 75s and/or BLAZE cards to 14 SFS immediately upon discovery. All AF Form 75 and/or BLAZE cards will be turned-in at the completion of stated contract, termination of employee, barment from base, released from contract, and/or government terminates contract. Failure to follow stated procedures may prevent contractor/subcontractor from further qualifying for base access.

2. PHYSICAL SECURITY

a. Contractor/subcontractor gaining access onto the installation will conduct all work during the days and hours of M-F 0730-1630 unless otherwise specified in the statement of work (SOW) or as approved by the contracting officer and will not be allowed to access other base facilities unless specified on the SOW. Contractor/subcontractor(s) will adhere to entering/exiting vehicle inspections and traffic laws as outlined in the Mississippi Code, DoD, AFI, AETC, and applicable Supplements. Contractor/subcontractor will also be subject to FPCON entry authorization and procedures based on the Antiterrorism Officer (ATO) or designated person(s) recommendation i.e. contractor/subcontractor may not enter CAFB during "REAL WORLD" increased threat situations or must follow the ATOs established procedures.

Contractors/subcontractors shall not be delayed or denied entry during installation exercises. Contractors and subcontractors are not authorized to sponsor personnel onto the installation unless specifically authorized in the SOW. Note: Retired DoD personnel and/or CAC holders to include dependents who are employed by a contractor(s) may not use their sponsorship privilege for the contractor/subcontractor(s) benefit.

b. If contractor/subcontractor is issued a government key to facility(s) and/or equipment, it is the sole responsibility of the contractor/subcontractor to safeguard against reproduction and theft. Contractor/subcontractor will report all missing, stolen, and/or unauthorized reproduction as soon as discovery is made. Contractor/subcontractor will ensure facility is secured and all lights are turned off at the end of the work day. Any equipment whether government issued or private property must be secured in a manner to afford it reasonable protection from theft.

3. INFORMATION/INDUSTRIAL/PERSONNEL SECURITY:

a. Contractor/subcontractor working on classified, sensitive, and/or high risk projects will report any suspicious activity or suspicious contacts by personnel to OSI (Eagle Eye at 662-434-7128). Any person finding classified information will immediately secure it (do not open/read/examine) and contact 14 SFS at 662-434-7128 and inform them a patrol response is necessary to take control of classified document(s)/material(s). All contracts regardless of cleared or uncleared status will be reviewed for Industrial Security purposes by the 14 SFS/S5 personnel.

b. Contractor/subcontractor will submit to a criminal history background check 2 weeks prior to start day of contract. All contractor/subcontractor will be provided an individual form and/or spreadsheet (by 14 SFS/S5 or 14 CPTS-CONS) requiring as a minimum, two forms of ID as listed on the I-9. Information must be typed or computer generated on the provided template to ensure clear and legible information. All contractor/subcontractor(s) must sign the release form prior to the criminal history background check being conducted. Foreign national(s) contractor/subcontractor(s) must provide proof of immigration status. Contractor/subcontractor may be barred from CAFB at the Installation Commander's discretion based on unfavorable information resulting from the background check.
